## elesa® BRAKE CLEANER

### Degreasing Cleaner for Brakes and Clutches

#### • Description

Special cleaner for brake discs, drums, discs and clutch components. Eliminates grease, gums, char and dust.

#### • Success sectors:

- ✓ Farming industry
- ✓ Public works, mining and exploration
- ✓ Industry
- ✓ Naval sector
- ✓ Automotive
- ✓ Machinery and construction
- ✓ DIY

#### • Milestones and benefits

- ✓ Applicable in brake discs, drums, pads, cylinders and calipers.
- ✓ Removes oil, brake fluid, grease and deposits formed in any mechanical component

#### • Properties

- ✓ Does not leave waste and dry quickly.
- ✓ Do not conduct electric current.
- ✓ It is not abrasive or corrosive.
- ✓ It is free of chlorinated components. It does not attack the ozone layer.
- ✓ Safe on all metal surfaces and most gums, plastics, and coatings

#### • Use recommendations

- ✓ Product for direct use.
- ✓ Spray the product generously at a short distance on the surfaces cleaning and dragging the dirt.
- ✓ Let the product evaporate.
- ✓ For persistent dirt mechanisms, allow a few moments to take effect and help with a step towards elimination.
- ✓ Repeat the operation if necessary

How to use spray:

1. Shake well. With the container upright, briefly practice on another surface. Press the button fully.
2. Spray for a short time and stir again if large applications are to be made.
3. Do not keep the container less than 25 to 30 cm away from the object to be greased.
4. After use, invert the spray and press firmly the button until the product stops coming out and only gas comes out. This cleans the inner cannula and prevents clogging for new use.
